Description
Hoopers Island Oyster Co’s upgraded nursery tanks now have fiberglass silos. Our new fiberglass silos replace the PVC pipe silo series. This maximizes the surface area which increases stocking densities and eliminates the need for PVC pipe risers. he new design increases flow rates, translating to faster growth rates for your farm. Our tank has been specially designed in-house for high efficiency and low maintenance. This new design features a deeper sloped bottom and 4” drain to allow for quick and easy cleaning. The tank is elevated by stands and includes 12 silos. Our tanks allow for upwelling and downwelling, whichever is needed, and arrive ready to use with your pumps/plumbing.

Constructed of fiberglass, each unit includes a tank, silos, protective bottom guard and trough.

Specifications
- 10’6” x 5’2” Tank
- 10’6” x 10” trough
- (12) 17”x17” silos equipped with nylon mesh and protective bottom guard

Price
- Unit Cost $7,345
- Additional Silos* $ 245 each
*available in various mesh sizes

Benefits
- Tanks with a sloped bottom and 4” drain for quick and easy cleaning
- Use as a static or flow through system
- High efficiency and low maintenance

Terms
- Lead time is approximately 15 days from placing a 50% deposit
- Extended Spring lead time due to order volume
- Full payment required prior to shipping
- Add 3% for credit card orders
Upweller/Downweller
High efficiency, low maintenance

**Stocking Density**
- 17x17-inch Silo – .5 liter/silo
  - 1mm seed = 600,000 per silo
  - 2mm seed = 270,000 per silo

One millimeter (1mm) of growth is expected per week, however, growth rates vary depending on many factors including environmental conditions.
